

Client Care Letter Wording

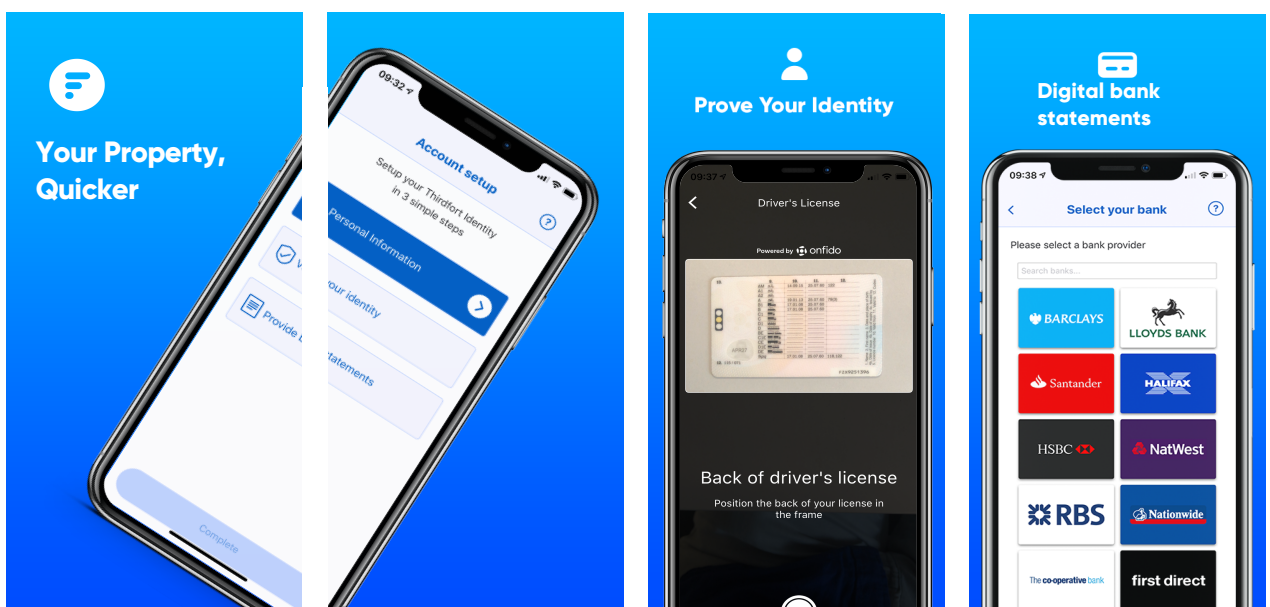

We recommend that you include the below wording in your standard client care letter wording.

This explains who Thirdfort is to avoid the confusion from the client's point of view and increases completion rates whilst speeding up the time it takes for clients to complete their checks.

Wording to Insert:

“As part of our “Know Your Client and ID” due diligence process, we invite clients to complete and submit their personal information via our third party app ‘Thirdfort’.

I enclose with our Terms of Service an Informational Leaflet for the App, for your kind attention.”
